European Bridge League

Falkenberg, 4 September 2015

On 31 August 2015 the Norwegian Bridge Federation sent a formal request to European Bridge League (EBL) urging EBL to make a formal review of the status of Lotan Fisher and Ron Schwartz in light of allegations of cheating originally made by Boye Brogeland.

The allegations made in public on bridgewinners.com and bridgecheaters.com are now backed up with full video documentation and hand records from several matches of which some of them are matches played under the auspices of EBL. Three of the matches are Israel-Norway, Israel-Hungary, Israel-Monaco and Israel-Netherlands in the European Championships in Opatija 2014.

Without judging on the validity of the documentation brought forward the NBO's of the Nordic countries find the allegations made from several writers very serious. Thus the NBO's of the Nordic countries hereby officially ask EBL for information as to what actions EBL has taken or intends to take in this matter.

Best regards
